Dear Mr. Lamb,

In debates pro & con gun control, I've never heard these points observed. Are they true?

At the time the second amendment was passed:

- ① There were still hostile Indians in western N. Y. State.
- ② The English in Canada were a threat to the U.S., inciting the Indians.
- ③ Napoleon in France was on a rampage in Europe and claimed Louisiana Territory.
- ④ The Spanish held Florida.

I can't get through by phone !!!!

Sincerely,

(over)
