

Dear Brian:

Aug. 12-'91

We were interested in your interview with Trammell Crow. When you asked why the media was against Nixon, we could have told you that in the late 1940's when Nixon was a young Congressman, he found evidence that Alger Hiss - of the State Dept. & "darling of the liberals" was passing secrets to the Communists. He got Hiss convicted & Hiss spent years in prison. The liberals (media et al) never forgave Nixon for this - They were out to "get him" whenever they could - and they did - with Watergate -
