

Dear Stan

I was watching your morning program on Aug 18, 1993. Your guest was Eleanor Smeal & who is the most outrageous feminist in the country. She represents a small number of women, mainly the most radical feminists.

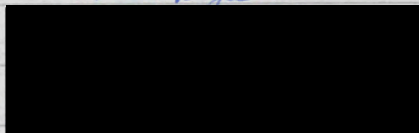

I would like to know why you don't have Beverly La Haye on your program. Beverly La Haye represents the "concerned women of America". Her organization has 600,000 to 700,000 members. I am a member & have been for several years. They represent the traditional women

who outnumber the radical feminists.

Please consider having Beverly La Haze
on your program. I will wait to see
Beverly on in the near future.

Thank You
