Hello Brian Lamb,

Have been watching this AM and

find the viewer comments very very interesting. I admire your skill in handling the callers. Want you to know how grateful I am for C-SPAN. I feel you make the utmost attempt to be fair, honest + truthful. This does not mean I always agree with what I hear nor do I need to. I am always seeking new ideas and information. I do not need to hear "mature adults" (?) argue as they do on "Crossfire" and many other similar shows.

C-SPAN allows me to think on what is seen and heard and then I can decide for myself. We, the people do not need the analysis of so called experts and C-SPAN is assisting the awakening of each individual to think for her/him self. **o.w**

Book notes is such a marvelous book program, for you seldom if ever interrupt the authors. You are

able to live beyond the rules and controls of other networks.

I no longer watch Network news and watch little local news. I get my news from C-SPAN 1 + 2.

This is a request; Please return your showing the News from Moscow. I really learned from that newscast.

I've watched many many hours of the U.S. Congress in action and the most interesting thing I've learned is that most if not all politicians are skilled at sounding terrific while saying absolutely nothing. My listening skills have improved for I recognize TRUTH now and often, I find the TRUTH in the silence between the lines + between the words.

I am able to move into a state where I know without asking a question. Tis joyful!

Bravo C-SPAN
