Dear Mr. Lamb:

C-Span I has been available in this area just over a year. We are grateful to have it. The manager of the cable co. here will not talk to us about C-Span II.

Most of your programs are very interesting. Showing the protesters was a slap in the face to most of us and certainly to all the service persons.

So far it has been ignored as what the situation would be if the President had not sent troops to the Gulf. More should be told about the sadistic practices of Iraq and less on the faults of our people.

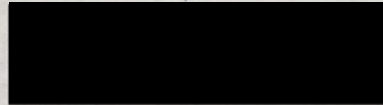

Recently you made the comment that Sen. Gore had done so much for Tennessee. Having lived most of my 72 years in this state, I do keep up with how people vote. Where did you get your information? His votes show what he has done to Tenn.

Some of the reporters seem to think they have a monopoly on knowledge and any one outside the belt-way can't possibly know the facts.

There should be more discussion on "sleepers" that have come into this country and other countries.

The news people giving so much time to Iraq should pack their bags and buy a one way ticket for that area.

Sincerely,

A solid black rectangular box used to redact the signature of the sender.
