

Dear Sirs,

I first want to thank you for doing what you do. It has helped me and my family stay current with the politics of the day. You fill a void that I don't see being filled anywhere else.

I would like to make a request. The night of President Clinton's press conference on march 24 (??) I caught the tail end of Rep. Leach [R-Iowa] on the floor of the house, making a speech outlining the President's Whitewater troubles. I would very much like to obtain a copy of that speech. Could you please instruct me as to how that could happen. A video would be fine as would a transcript, recieved either through the mail or over the Internet.

Thank you for your time,
