December 29th, 1992

Sir,

On Christmas morning I scanned the cable news programs in vain search of the Queen's Christmas message from London. Fortunately I hit C-Span at just the right time and was able to hear most if not all of this message.

Thank you sir for showing it in its entirety. There are many of us who have ties to countries of the Commonwealth who look forward to hearing this important year end message.

Thank you again for televising it. For myself and others it helped to make Christmas extra special.

Sincerely,

[REDACTED]
