Tues. Nov. 19, 1991

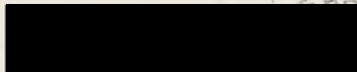

Thanks for your ^{interesting} viewer call-in on AIDS on Fri. evening Nov. 8th. I wish you would repeat it more often so everyone will be made aware of this ever-growing problem.

Are there plans in the future for other closed-captioned programming on C-SPAN/C-SPAN 2 in addition to the proceedings of the U.S. House of Representatives? I hope so, as hearing-impaired people as well as those learning to read will be able to benefit from them.

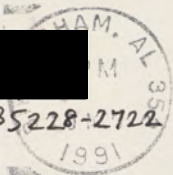

Finally, why did you have to include commercials in the Sat. night Nov. 16th simulcast of the Louisiana gubernatorial election returns? Instead of the commercial breaks, mini-call-in segments from viewers on the day's election would have been more profitable. I know that C-SPAN/C-SPAN 2 is usually commercial-free, but in the future please try my suggestion during the usual commercial breaks on simulcasts such as this.

Thank you.
