Program Friday Morning 08-12-94

Your guests were unable to explain to a caller why the congress appropriated \$2,000,000 for the NRA (National Rifle Association).

The caller was under the impression that the NRA is some kind of subversive organization .

The media blackout of the past 45 years on anything to do with target shooting, hunting , recreational use of firearms has succeeded so well your guests were innocent (not knowledgeable) to answer the caller and your question , what is this 2,000,000 .

If you have read this far , and would like some information about the 2,000,000 , see next page and become sentient (knowledgeable) .

Thank you

WHY THE US CONGRESS WOULD GIVE 2,000,000 TO :
 NATIONAL BOARD FOR THE PROMOTION OF RIFLE PRACTISE who give to
 DIRECTOR OF CIVILIAN MARKSMANSHIP (DCM) who give to
 NATIONAL RIFLE ASSOCIATION (NRA) .

The NRA was founded in the 1870's by the victorious generals
 of the Union Army who won the civil war ,freed the slaves , preserved
 the Union , as a patriotic organization dedicated to the defense of
 the nation and preserving its liberty.

These generals felt that rifle marksmanship was not all it should
 have been in the civil war and proposed that target shooting, always a
 part of the American scene ,be organized on formal lines with standards
 of instrucruction . The NRA would be and is the organizer of formal
 rifle and pistol shooting in the USA . Congress agreed this was
 a useful idea, since large standing army not in US tradition, the citizens
 as a sport, would train in firearms ,on their own time and expense .
 Thus , National Board for the Promotion of Rifle Practise, Director
 of Civilian Marksmanship , NRA , rifle clubs, leagues, national
 matches at Camp Perry Ohio every year . From Spanish American War
 up to Vietnam and Persian Gulf , men trained in the target sports were
 able to immediately be useful when called to serve , and train others .

The second amendment is out of favor with the establishment ,
 and the media . The media who cringe behind the first amendment and
 consistently bash we second amendment defenders seem not to be aware that
 when the second amendment goes, the first is not far behind .

The only politically incorrect item in thiscorrespenseence is
 infantryman . Sorry .
