As a subscriber to "Update" I would like to know what happened to the broadcast scheduled at 5⁰⁰ pm (Pacific Time) on Aug. 4 allocating time to Sara Nelson?

What did take place at that time could hardly have been less impressive or more boring.

Someone in our part of the country ~~did~~ hear her at 2⁰⁰ pm (Eastern Time) who stated that she was an extremely outstanding speaker. I want to hear her. Will she appear again soon?

Having lived in Costa Rica for many years including the time of the La Rencia bombing I have a particular interest in that event.

I hope C-Span is not going to do what Tacoma, Wa. PBS did by cancelling Jonathan Swartz' program "The Switz Report" which exposed some ugly truths.
