Dear C Span,

I can't remember your name, but I turn
C Span on at 7 A M and it stays on until
my Soap Operas from 12:30 to 3:00 PM - sorry
about that - I have watched my soap operas for
10 years (since my Retirement) and I have only had Cable
TV since November of 1989.

What I am writing you about today - is that
you had 2 radio reporters as guests - one from MSR
(I think his name was Simon) and a lady, Lim, from
+ BBC Radio - and you had a caller giving you
much info. on John Hull who has a ranch in
Costa Rica. What this caller said is what I have
heard since the Iran-Contra Scam was first made
Public. If you want more information on this
man and his connection with the Players in the
Iran Contra Scam right from the beginning -
interview Christopher Hitchens, David Corn, and
Bob Woodward - all investigative Reporters - Bob Woodward
you will remember was one of 2 investigative reporters
who revealed and made Public the Watergate Scam

I imagine Bob Woodward could tell you much especially since he interviewed C I A Director Bill Casey who was in the thick of the Reagan involvement with Iran and helped him win the 1980 Presidential election — if the truth were known — I'll bet Bill Casey's death was pre-meditated either by Casey — or the Secret Team — of the Iran Contra Scam — now I think Bob Woodward was shut up by a very powerful force in DC (investigate all think Tanks) — If you don't pursue this and put it on your program — I will assume you also was shut up — Americans are not stupid — we know what Reagan knew and when he knew it — we also know why Bush has never answered. Bob I also question why Bush won't tell of his involvement in Iran Contra and also why first Ed Meese and now Thornburgh classifies all evidence that "Ollie" North and his Secretary didn't shred. The Right to Know has been removed from "We The People" since The Reagan 1980 election — Didn't you think it strange that the Iatolla released the Carter Hostages on Reagans Inauguration? I will be waiting for this to Air on your show.

Sincerely
