RE: Program notes

Dear Sirs,

How does C-SPAN determine what notes and labels will be flashed on the screen during hearings and debates? I am asking because the labels and notes seem to conflict with the statements made by legislators.

Thank you for your attention.

Sincerely,

RE: Schedule of Programming

Dear Sirs,

I am interested in a detailed program of your broadcasts. I want to know specifically what debates and issues will be discussed, and at what times. Labels such as "Public Policy Programming" is not specific enough for my needs. I am willing to pay for such information if necessary. Please let me know how I can get a listing of specific programs.

Thank you for your attention.

Sincerely,
