Re; Viewer input.

Dear Madam:

I have been a regular viewer, and listener for many years, I am not interested in wasting my time watching soaps, watching the House and Senate actions is more than enough time viewing Soaps. I had a very good friend in the House uneill this year, Hon. Henry B. Gonzalez who retired and went home to Texas.

Mr. Gonzalez sent me copies of the Congressional Records for the past several years.

I haven't been successfull in my efforts to call the Program for many years, and I tried un-successfully to call quite a few times to ask some of your Political ~~guest's~~ a few questions concerning the on-going Political Circus, and finally I wrote to Hon. John P. Murtha our Represenative and brought some serious questions to his attention concerning testamony given by Monica.

At this point in time it is not decided rather the Senate will be calling witnesses to testify.

I find it very strange that Linda Tripp became involved in the taping of a conversation between her and Monica, perhaps the Special Prosicutor didn't tell Tripp that it was a violation of Law for her to have their private conversation taped ? then again there may have been a willfull breach of the law carried out by all of the parties involved.

I would question the validity of any part of the conversation and challenge the use of anything contained therein.

I noticed today that one caller brought a bit of this out when conversing with Mr. Stensenbrenner, had I been able to connect we would have been more specific on this question.

Monica contends that she had no knowledge that the conversation

was being taped between her and Tripp, perhaps this action was carried through collusion and consparicy beginning with the Special Prosicutor?.

As I listen the Senate is debating rather they will insist on having witnesses called before them to give testamony, I heard it said that Monicas Atty. has said he rejects having Monica appear before the Senate I find this very strange, perhaps the Illegally taped conversation between Monica and Tripp would cause a firestorm that would not be welcomed.

I also find it very disturbing that the Special Prosicutor would say that he has granted Monica immunity from prosicution for things she supposedly has said on that tape, since Starr is in Law enforcement he should certainly know that the taping was a violation of Maryland Law.

This show has traveled from Washington to Arkansaw and back plus God knows how many side trips.

This old man has not been asleep during this proceedings, I started my life of involvement at the age of Seventeen years when I volunteered for service in the beginning of WW2, quite often since then I have been wondering where all of the Citizens have been that this Nation has sunken so low.

The newspaper here in Johnstown, Pa. continues to publish Our Natl. Debt, I don't know where they are getting their numbers from.

However I ~~do~~ know that ~~that~~ persistance does pay off if at first we don't succeed we try try again.

After a lengthly attempt to obtain U.S. Treasury Documents I finally was successfull through Rep. John P. Murtha.

I received documents confirming our Gold Reserves, Silver Reserves, and money minted and printed.

The results of a few weeks of arithmetic with my calculator tells me we are Constitutionally BANKRUPT. and I beleive Our Nation is just about there MORALLY.

With my physical conditions I beleive I am on my way out of this life, I truly feel sorry for the younger generation, they are facing a very bleak future if the majority of our careless Citizens don't soon waken.

Thank you very much for your time and patience reading this lengthly communication.

Sincerely,
