Chairman & CEO

Dear Brian,

This is a long overdue note to both congratulate and comment you for the festivities surrounding C-SPART's 25<sup>TH</sup> anniversary.

Judging by the depth of industry and Washington characters that participated, I'm not sure anyone else in this great industry could come close to pulling such a distinguished group together.

That, to me, clearly defines how much you have meant to our industry and to our country.

With best wishes for continued success,
