March 22nd, 1984

I watch C-Span because:

1. I now have one local newspaper...the rest of my magazine and newspaper subscriptions are OLD HAT;
2. I can even tape the programs I want to see...the investment in a recording machine saves me hours of reading and I can go about my business and see your material at my convenience;
3. I am a newspaper publisher and want to know as much as possible, especially International and the Washington actions about them; for this reason I even invested in another television so I can watch certain special events... meanwhile I am recording the C-Span programs I will see at some other time.

I have been doing this for several months and checked the newstands and magazines, there is absolutely nothing I do not have more up to date information from you.

Keep up the good work, Youve got great people doing it too.
