Gentlemen:

We have recently moved into the Benton Kentucky area where we are serviced by MultiVision Cable. You cannot believe our surprise and disappointment to find that C-Span is not offered by MultiVision in this area.

The management of this cable office suggested that we contact Turner Network for information on how we might receive C-Span.

My husband and I have been faithful viewers of C-Span since the early 1980's and we both feel that there is no better way to learn about American Government than to watch the House and the Senate in action. It would be a great service to this community to offer C-Span even if it is offered as a pay channel similar to other pay channels you offer.

We would greatly appreciate your comments on how we might receive this programming, short of moving. Thank you.

Sincerely yours,

CC.
