July 23, 1996

Dear Brian;

For the past few years we have grown to regard C-SPAN as the only sane voice on the television screen.

Last week you shattered my confidence in the objectivity of C-SPAN by stating that you are going to begin screening call on Washington Journal.

The first amendment applies to all whether or not we share their views. Your new policy is an insult to the viewers. The reason, as I understand it, is the "Clinton bashing" that has been taking place.

The democratic party and I parted company in 1992 after a life-long association. Lack of a moral

Compass and character on the part of the current occupant of the White House are the reasons for my decision. I resent being pushed out of my party. The scandalous behavior of Mr. Clinton and the corrupt cast of characters with whom he has surrounded himself are despicable.

Cutting ethical corners at every turn, babbling meaning, telling lies, making promises never kept, I am angry Brian - and so are many thousands of others. This is no longer the party of Harry Truman and John Kennedy.

The national media, primarily Eastern, have been mesmerized by the Clintons - an astoundingly shocking phenomenon to me. I thought we were supposed to hold people with brains to a higher standard.

2,

Objectivity and True investigative reporting have eluded these reporters.

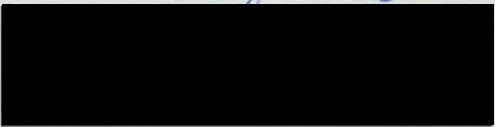

Red flags are waving all around them - whitewater, criminal indictments, convictions, FBI file intrusions, faulty memories, drug deals, Meva, Arkansas, the Jackson Stevens connection and strong-arm tactics in blocking radio and TV from interviewing authors - all demonstrate their flagrant disregard for the law and disrespect for decency.

This immoral group is ruining our country and sending a horrible message to our youth, with their lies, double dealings hypocrisy and "so what" mentality. Damage control rules the order of their day.

Our Country faces grave problems at this time in our history. I am

embarrassed to see this young  
governing us. Our forefathers must  
be spinning in their graves!

Wake up and smell the coffee Buar  
Your Callers know! Disappointed in  
California

P.S. Though I have never called in  
to the Washington Journal program  
I have a suggestion for a future show.  
a subject vital and pertinent to me and  
my neighbors — and friends —

The invasion of California by  
illegal and refugee aliens — and  
have someone knowledgeable on the  
subject — not some talking head  
from the L.A. Times!
