Dear Cable Company:

We have been subscribers since you started.

We are quite concerned about recent and possible future changes in what you transmit to us .

You recently added Fox News - we cannot understand why !
We already have CNN News and Headline News plus all the local channels . Why add Fox ? We have read that it is because Fox is paying you to carry it ! Is that true ?
Also, who wants a channel with 24 hour cartoons ?

We have read that one of the channels that your company has dropped in several parts of the country is C-Span .
We strongly request and urge you not to drop C-Span from our listing .

That you cannot please everyone is true, but when you make changes without input from your subscribers , and even against their wishes , you are pushing them to switch to a satellite system !

Have you ever sought opinions from your subscribers ?
You have never asked our opinion ?

We enclose a list of your channels with the ones that are important to us high-lighted.

Yours sincerely ,
[REDACTED]

Copy to Los Altos City Council.
