What a welcome relief to have Michael Barone on for 1 1/2 hrs. It is in stark contrast to David Bonior who is disingenuous & a sword thrower. His diatribe against Joe De Genova and Victoria Kensington is a disgrace & he should be investigated. Doesn't he take money from the Labor Unions. Hugh Downs is just great! It's good to see him again after watching him several yrs. ago on a political program. I think the older and seasoned Journalists are so much more interesting.

I am so glad Tony Snow had the courage to tell the truth about Wash. Journalists who are pro liberal who let lies go on about Dan Burton & Bossie even tho they knew differently. Now I am even more sure that I distrust liberal Journalists.
