Dear Bryan:

Of course you young-uns  
can't remember who used "Democrat"  
as an adjective instead of a noun!  
I clearly recall the first time I  
heard the word spit out - it was  
during the Army McCarthy hearings  
in the early 50's and Senator Joe  
gets the credit. Watergate was  
more than a couple decades later.

I never have the courage  
to "call in" but I too have become a  
C-span addict.

Yours,
