Gentlemen: ✓

I recently saw a program on C-Span about Thomas Jefferson. Dr. Eugene Foster spoke about D.N.A. and a marker that is carried by the father to his male children. Annette H. Reed, author of the book, "American Controversy" spoke and was interviewed, as well as two ladies connected to the historical Monticello and a descendant of Sally Hemings. It was very interesting.

If I understood correctly, programs on James Madison at Montpelier was the next week and James Monroe the following week. There has been nothing in the Tampa T. V. Guide or the Tampa Tribune as to the time. I've hunted for it on the T.V. at the approximate times, but no luck. Please tell me when I can find it. I'm so interested in history, especially American history. Yours truly,
