

CANTON, MA 02021

I enjoy watching C-Span because it gives my family and I the opportunity to see who holds public office and heads major Co's. I rather watch C-Span than a two minute news cap that really covers nothing. I believe all citizens should be able to watch their law-makers at work. Instead of hearing and promises or may be's you get to see the real thing. It's one of my best states, when I want to know what is going on with our political leaders. I always encourage my future wife's two children to watch. So when questions come up in school they can answer properly. Instead of everything being held behind closed doors like a communist country. We can really see where the beef is. I think we should see, hear and know where our tax dollars are being spent. When we have more programs like C-Span this country in a whole will be better to understand. I believe as a free citizen, more sessions should be open to the public eye. I will always

over

be a watcher of C. Span and continue to watch as long
as it's on the air. I don't believe you have to be
politically involved just to see what's going on
in our country. We just live here.

Sincerely yours,
