

Why do you never have guests from the Christian Broadcast Network "Newswatch"? They are credentialled press people who cover the Senate, House, Court, and White House, and their broadcast and news production facilities are in nearby Virginia Beach. Of course if you invite them to participate in discussions of topics with which they should have an interest, and they decline, by all means say so on the air. Such statements may dispel any doubts about the fairness of your selection of guests.
