

2-1-94

Dear C-Span

You are a guiding light in a rather dark world. By watching you, I can watch bills being discussed, I can hear + see when action is in behalf of the U.S. citizen and when its going to someone else's gain. I thank you for that. I write a lot of letters based on what I see and hear on C-span. If you expanded your coverage (its already extensive) I'd probably just watch you.

These are crucial times. Our press and newspapers do not give us the straight story - They slant it. I get it straight from the horses mouth - so to speak on C-span (Telecasting 24-hour schedule - is extensive!)

You sent me a 1989 Congressional Handbook which is so outdated now. This handbook is a very valuable resource when I write my letters.

Two letters go out today based on program last night

Thank you + Sincerely,

[REDACTED]
