

Dec. 23. 1993.

Dear Sirs

What seems really terrible to me with regard to the present situation concerning President Clinton is this:

State Troopers, me at least as I have heard it on the news, has admitted to being a procurer!!

Did I hear the editor of the LA newspaper referring to these troopers as HERO'S? Well, if we want to know one aspect of why we all live in fear and trembling, because of crime those in charge of protecting us are themselves criminals. Get these creeps off the streets and prosecute them.

My personal behavioral actions are man of President Clinton's business. His are not of mine. He is not a criminal in my view. These troopers are criminals

My wife and I think powerful self interest groups are out to get a man who cares about this nation. Perhaps in a year or two we will learn that maybe insurance companies, health organizations, Republicans and conservatives have gotten together over

and deliberately sets up this
situation. Let us hope we are not
going to be taken in by whatever
outfit are manipulating our world
behind the scenes
