To all involved in the Welcome Home
Parade two weeks ago:

The memories linger on of your out-
standing coverage of this Desert Storm
Celebration.

JUL 17 1991

You gave us the whole picture —
all those marching units and their
bands gave us a thrill — even the
music came through beautifully
(unlike the Rose Parade where there
is too much commenting through the
music!)

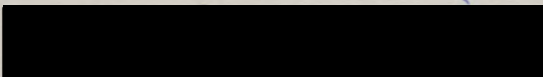

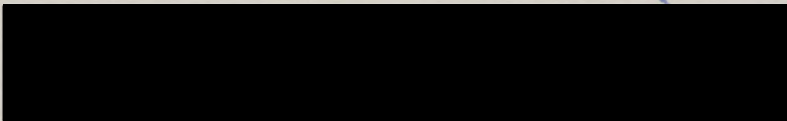

The shots of the President, the
children, all kinds of spectators
gave us much human interest.

Willard Scott and General Streete
were outstanding. Their timing was
right and the long silence after
the tribute to those who didn't

return was moving and sensitive.

We particularly liked one camera shot taken from behind the spectators, through trees and people as they watched the military vehicles passing by.

Well done!
