

MARCH 20TH

"C" SPAN:

This Sunday morning, I sat down with a cup of coffee, and put on the television, to see what "YOU" had planned for the day.

There on the t.v. screen was a notice with a telephone number, asking for viewer comments.

Since 1989 I have been writing letters to "C" SPAN, seeking information making comments, making suggestions for future programs, and areas where I thought "C" SPAN could make improvements.

At know time, let me repeat, at no time have I ever received from :C: SPAN, any answers to any of my letters. No indication that you have something in your mail room beside a "SHREDDER", with an automatic feed-in..

At least with the CLINTON WHITE_HOUSE, one receives a form type postcard. Then one day, not to long ago, I was watching "C" SPAN, and there was the answer, "YOU" had taken your cameras, and were going thru the "C" SPAN offices, and there was a "superb collection" of "air-headed" teens, all "handpicked" no doubt. I would assume, that these "CHOICES" were made from family, friends of those "POLITICAL HACKS" from within the "REAL AMERICA" the so-called inner belt. Why do "YOU" not due a program on people like myself, who are not politically represented in this country. I am a W.A.S.P.-an independent voter-I vote on principals, lean toward the conservative outlook-but I am not represented by ~~my~~ politicians on the Federal level. AT the federal level here, "I" have "Senator "Ted Kennedy (OH THAT HURTS) "Senator" John Kerry, who is only happy when he is in southeast asia, looking for human remains. And the "BEST" is saved for last, (my typewriter will burn out after this) REP. BARNEY FRANK.

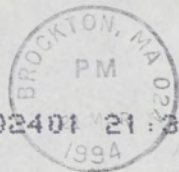

Could you imagine in your wildest imagination, being caught in an elevator, trapped between floors, with Barney and his sister Ann Lewis.

I do enjoy Mr. Lamb and his programs, and much admire how he can control his feelings, when dealing with those outside telephone calls, CAN THE "FAX" on friday and monday mornings!!!!

With regards to all
