

April 27, 1993

CSPAN
Washington, DC

TO WHOM IT MAY CONCERN:

We understand that you have a commitment to address all issues, but the Gay and Lesbian march on Washington that was carried live on CSPAN Sunday crossed the line of decency. We were outraged that you would have chosen to broadcast what was the equivalent of pornography.

Using our nations capital for such a display of trash not only degrades us as a nation but also sends a wrong message to so many other countries that look to us a world leader. To think of all the children that were witness to this behavior makes us sick to our stomachs.

We hope that in the future you think of the impact such broadcasts have on the viewing public.
