C-span, Brian Lamb

Dear Mr. Lamb,

Now that several recent events have brought the problem of illegal aliens to the forefront, would you please do some programming regarding this serious situation on your early morning call-in show.

I have been interested in this subject for several years now and have just finished a booklet by John Vinson President of the American Immigration Control Foundation titled "Immigration Out of Control, the Interests Against America." It was an eye opener and would suggest him as a guest on the program.

Thank you
[REDACTED]
