

We write to express appreciation for C-Span programs. Your coverage of the House and other political programs makes us feel in touch with our government, and we feel we are better informed than before we could see C-Span.

Special thanks for your coverage of the British House of Commons.

Suggestions: Try to have at least two "Booknotes" programs each week, interviewing different authors and books. This is a program we watch with great interest, and often your interview prompts us to go out and buy the book.

Try to have more programs on the EC. Your coverage some months ago from Strasbourg and Brussels was excellent and informative. We need an update weekly or at least monthly!
