Dear C-Span,

Yes, continue, yes, yes, yes - This is Great - your T.V. program is so excellent, informative, and democratic

However, One improvement would be appreciated! Do not have music back-ground when talking is important. I like to hear both separately, but not at the same time! The speaking is so vital that ^{music} ~~it~~ drowns out some words missed, and misunderstanding or loss of the message takes place! Thank You, —
