Mr. Brian Lamb  
400 N Capitol St.  
Suite 650  
Washington, DC 20001

Dear Mr. Lamb:

I have been mailing cards and letters to you and members of The C-SPAN Staff, as well as to various news media and many names I take from telephone directories in my effort to light a spark that will hopefully lead to your candidacy, as well as to your election to the presidency in 1996. I do not know your feelings on this or even what your plans for your future may be. I do know that millions of Americans have begun to be concerned about their futures, the future of the United States, and are particularly concerned about government and the present day politicians to whom we entrust our government!

I am sure there are many men and/or women in our nation whom would be capable of leading our government, a few even more capable than yourself. But among all of those that are capable there is not one in whom I would put more faith or trust than you. How did I arrive at this conclusion??? I'll be equally as honest as I would ask you to be; it has been brought about by observing and listening to you on C-SPAN. So maybe I may be wrong, perhaps you are a scoundrel and would be as scheming as many present day politicians if you were elected to high office! I do not think so! ! ! ! I have never contributed much to my (our) country except to pay my taxes, and I don't carry a sign around that proclaims I am an American citizen, but I can assure you there is no one anywhere who is more glad to be an American Citizen than myself. And if I can light the spark that will light your path to The White House, then I will feel after nearly seventyfive years I will have repaid my country, perhaps a small portion, a part of what my country has afforded me.

You know, I never went to school beyond the fifth grade, and I am not very smart in the ways of politics and politicians or national and international diplomacy. I left home when I was fourteen, lied about my age (I was a big boy) and went into President Roosevelt's CCC service during the depression. From the CCC I again lied about my age and enlisted in the US Army also during the depression era of the thirties and stayed there for more than seven years. So you might say the only smarts I have

I learned on the streets and from other hungry kids I served with in the CCC and the Army. But you know it's a funny thing Mr. Lamb "STREET SMARTS" has it's advantages also! Oh, you don't grow up to be a bank president, or mayor of a city, you don't ever earn much beyond minimum wage, and you never have much influence over othe people; as well, you also soon learn to know by instinct when you are being conned as well as how to avoid it. And the single most thing that has awed me all of my life, in this country when I go inside an election booth and cast my ballot, my vote counts just as much as the vote of a Ross Perot, a Bill Clinton, and even the vote of Brian Lamb. My single little vote can cancel out the vote of any other man, no matter his wealth, his education, his power. Mr. Lamb That one little fact make me as powerful as the most powerful man in this nation, ("AINT THAT SOMETHING? ? ? ? ?))

But with all my power I have a problem, a problem that besets every American Citizen. "Dollars\$ \$ \$ \$ \$ \$ \$ \$ \$ \$" are taking my power away from me and from all Americans! The dollars I am talking about are the dollars of SPECIAL INTEREST GROUPS, THE DOLLARS OF CORPORATE CONGLOMERATES, THE DOLLARS OF OF FOREIGN LOBBYS, AND THE DOLLARS OF VERY WEALTHY INDIVIDUALS! THE GREED OF POLITICIANS FOR THESE DOLLARS HAVE BECOME SO OVERPOWERING THEY SELL THEIR HONOR, THEIR INTEGRITY, AND THE AUTHORITY OF THE OFFICE TO WHICH THEY ARE ELECTED IN THE PURSUIT OF THAT DOLLAR! OUR POLITICIANS KISS OUR ASSES FOR OUR VOTES RIGHT UP TO TIME TO GO TO THE POLLS AND THE DAY AFTER ELECTION THEY START KISSING THE ASSES OF THE SPECIAL INTERESTS AND PURSUING THAT ALMIGHTY DOLLAR ALL OVER AGAIN! Yes sure, I agree, what they do is legal, the courts have said so! I know what is going to happen as a result, this country, our nation, our home, our people are going to become so fragmentd eventually that it will make what happened to The Soviet Union and Yugoslavia look like a Fourth of July picnic in Independence, Mo. I'm sure as hell glad that I am nearly seventyfive and wont live to see the destruct- ion that cannot help but occur!

Cannot help but occur, unless the people of this country come together, seek out men such as yourself that can and will restore our political system, that will take the "GOVERNMENT FOR SALE SIGNS" from The Senate, The House of Representatives, and, Yhe White House!" Men like yourself that will remove prostitution of government from government! Men like yourself, whom will not be susceptible to the dollars of special interest groups, susceptible to the dollars of corporate conglomerates, susceptible to the dollars of foreign lobbys, nor the dollars of the very wealthy.

Mr. Lamb who are the holders of record of the property located at 1600 Pennsylvania Avenue, who actually and legally are the owners????? Perhaps I should be in a mental hospital, maybe I need to be confined before I bring harm to myself or to others!

Can it be that for all of these seventyfive years my belief or assumption that this special house belonged to all of the people of our country has only been an illusion? Mr. Lamb I'm sure you know of whom I speak, lets see, there is; Larry Laboror, Charlie Carpenter, Brad Bricklayer, Willy waiter, Roy Roofer, Troy Trashman, Carole Clerk, Nina Nurse, Brian Broadcaster, Calvin Cameraman, Wanda Waitress, Harriat Housewife, Sally Steno, Buck Trucker, Mary Maid, Connie Mommy,, Denny Dishwasher, and so many many others. Mr. Lamb these people are America and this house is their house. Why then when we see pictures in the media are there not any of them sitting at any of the tables in their house; having cast their votes and hired their servants are they not good enough to sit at the tables with their servants? Do not the people's servants know that their employers are often eating beans and cornbread so they can pay the taxes that pays for the filet of mignon of which they are partaking? I would say, "this is one hell of a lousy employer-employee relationship! Doesn't Mr. Clinton realize that if he would only bring in a few of his employers to sit at the table with him, he in effect would be bringing in all America to break and share bread. Maybe his employer's overalls and gingham dresses have less dignity than his black suit or his wife's designer gown. Maybe he does not know some of his employers have to sit in unheated houses because they had to use the money for the gas bill to help pay for his black suit, his wife's designer gown, and the filet of mignon they are eating? Maybe it really makes any difference to them? Mr. Lamb this is not a situation that is only peculiar to The White House, it is an ongoing daily event thru-out all of our political system at every level

Mr. Lamb perhaps now you can understand just one tiny part, one small reason why I would have you as my President, as our nation's leader. Number one, I believe, you, more than anyone else have the capability, secondly, I believe you care, thirdly, I know that over these past years that you have had the visibility via C-SPAN that you could and would be a viable candidate!

For God's sake, and for the sake of our nation and our people, I pray you care enough to make the effort to bring our country out of the hoplessness we have come to know. Ask for God's help for you will need great strength, surely you will need it.

Your Servant,

P.S. Mr. Lamb this is the only copy of this letter, I have not and will not send a copy to anyone other than your self. I have not even kept a copy for myself. If you believe I have a mental problem or that I am full of B.S. then destroy my letter and I shall know I have just made one more mistake of the many I have made in my life. The least you can do is send me a plain post card that says, "YES", "NO", or "GO TO HELL!"
