C-Span:

Those blue ribbon panels like the one you had one C-span at 2:30 Sunday, Wichita cable Ch. 34, are always blue ribbon bull manure. They do the propaganda machine diatribe, like 10 minutes of learned gobble-de-gook, and never really touch a point. When you do get someone on the panel who thinks sense, he is immediately trounced out of the picture because he is not in step with the jewish propaganda machine and the patronizing pwoers that be. Get Real! The United States of America is not, in fact, a democracy. please do not continue to cram that righteous stuff down people's throats.
