Dear Mr. Lamb:

On a call-in program following the Senate vote on Mr. Clinton's economic package a mildly amused Steve Scully joyously announced that "tonight C-Span will be trying a new approach, namely using Two telephone call-in numbers - one for those who approve - one for those who do not."

Well, as usual, it turned out to be a very shrewd way of getting even responses of YES's and NO's - therefore, the embarrassment of a 10:1 vote AGAINST, would not be displayed on C-Span, giving the impression that all was HONKY-DORY and that the people approved - a FALSE impression!

Brian Lamb and associates have long ago made it a science of the art of being evasive - of being unbiased. They are no more unbiased than the man in the moon. I have detected the left-leaning tendencies of C-Span for years, and the way they grabbed on to Slick-Willie's handwagon. The

numbers-triggering was no surprise to me!

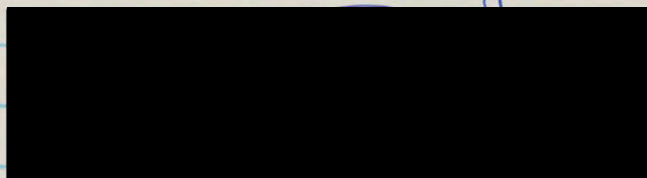

Just exactly what is it you are trying to accomplish? Sway the minds of the naive, the weak and the meek - those silly viewers out there in TV land?

Could it be that Bruin has become enamored by Slick Willie, because you are two of a kind?

Yesterday, I called your customer service to register my complaint about the falseness of the two telephone numbers - the 1-800's and the No's. I was unlucky enough to be answered with a barrage of unpleasanties from a female who not only was arrogant, but nasty as well.

Try to do better.

Sincerely

Mr. BL: Here is indisputable proof of where your loyalties lies.
