Your guest Malvinaux is a prime example of the problems perceived as "racial". With the attitude she has, people of her ilk are their own worst enemy. She was rude, obnoxious, loud & hurts the many wonderful people of her race. To say she is not an "American first" points out a problem she has. She who are American born or naturalized should always be "American First". All of our ancestors are something - American. People of all ethnic groups have been discriminated against - most few have made it. Please do not have her again - she dominated the show - a Rodman Showboat!!". Thanks.
