Dear Sirs,

It is my understanding that C-Span I (House) is broadcast with closed captioning but other programs such as Bicentennial is not.

This situation creates a hardship on those of us with hearing impairments. You have some wonderful programming such as the US Capital Historical Soc and the President's remarks to a group of doctors, etc — but no CC — so we are missing a lot.

Please consider this at your next Board meeting.

Thank you,
[REDACTED]
