Writing to you in order to give
my views on political, and other
world issues facing us today.
First, I must say, the political
world seems to be pretty messed
up with so many topics and all
these changes. Politicians have
always been hard to predict. Often,
political people promise one thing
and deliver the opposite. The
White House is going in 50
directions at once, these politicians
are hard to trust. President

anything in America. Congress

Dear C-SPAN Team,

My name is [REDACTED] I'm 29 years old. I live in Boston, Ma. I'm writing to you in order to give my views on political, and other world issues facing us today. First, I must say, the political world seems to be pretty messed up with so many topics and all these changes. Politicians have always been hard to predict. Often, political people promise one thing and deliver the opposite. The White House is going in 50 directions at once, these politicians are hard to trust. President Clinton it seems has no say in anything in America. Congress

Controls all! Why do Politicians always have money for space Programs but not for thousands of people in the U.S. living in poverty or in the streets? Why does President Clinton take so much time and money to rebuild other nations but never our own? America indeed has all kinds of domestic troubles. Why do we help others but ignore ourselves? Crime, Violence, Starvation, disease, homelessness, are rapidly increasing in the U.S. This world and this country are overloaded with tremendous problems. Inflation, taxes, unemployment, fraud continue to plague our country. Americans

Today are fed up with Violence
Crime, and living in terror. On
November 8th 1994, the citizens of
America cried out loudly for changes.
The People spoke! They want Crime
reduction, less Violence, More Jobs,
lower prices, less taxes and a
Crime bill including Gun Control.
The politicians represent us but, are
they listening to our needs? Murder,
rape, assault, burglary, robbery,
Street gangs, Vandalism, Inflation,
Unemployment, Fraud, Crime, Riots,
hunger, Car theft, truancies, Arson,
Wars, hatred, disease, illness, Racism,
drug + alcohol abuse, Child molestation
Vehicular homicide, lying, fornication,

bigotry, Poverty, Sex crimes,
teenage births, Prostitution,
Selfishness, Sorrow, aging, lawlessness
Adultery, domestic violence and
human division. All these things are
Wrong yet, have reached an incredibly
miraculous rate! All these things are
more popular and have gotten extreme-
ly dangerous. Humankind is in Chaos,
America, and the entire world has
far more trouble then ever. Never
have people and nations been so very
widely divided then now 1995.
How can things be any worse? Everyone
desperately needs to pull together to
save humanity. IF we do not come to-
gether today, there will be no tomorrow!

Sincerely, [REDACTED]
