

000594 MAR 26 93

March 19 1993

C-Span

It is infuriating that you people do not realize that you are being manipulated by the Republicans and now it seems the Press is getting the idea.

The Call-In is a great idea, but it seems to have escaped Brian Lamb's mind that the only people who are able to call in the morning are the people, not working, or running a business and can/or control their own time, so who is more likely to call ?, not the people not working they can't afford Cable, so those who call are the Repiublicans, and it is a fact that they have conspired to tie up your phone lines. As to the Press, now that President Clinton has put them in their place, they are now ganging up on the White House and using Brian Lamb as a cats paw.

C-Span Friday March 19 had to be the most disappointing show of Brian Lamb's career, he had three reporters who sounded just like Dole Michel and Gingrich, and were just as disgusting, if this is the best the program directors can come up with, your show will end up just like a Limbaugh presentation. Then the Republicans will be able to get all their calls in without any problems because nobody else will be interested.

C-Span was a great idea, I just hope that like many great ideas it is not destroyed by the reactionary conservatives of this country. Brian Lamb, I admire and respect you and I hate to see what is happening to your program.
