

8/18/94/

repeat

Dear Mr. Lamb,

opinion

Since March 1991 I have had to deal with the media. Over that time I have discovered many painful things. But I cannot solve them unless I can explain the cable technology. And in spite of the surveillance you do not know all which has transpired.

Port St. Lucie, FL 34983

meager help

cur the technology

circumstantial

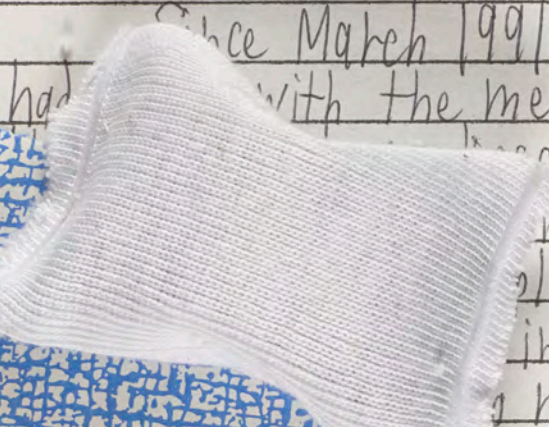

campaign. (And don't

forget since July 2nd Jeffrey Schuler's distracting forgery.) This could result in me living in a controlled setting, far away for many years, without solving any problem!

You obviously read of my anger toward *John Kennedy in the letter to Chuck Harder. JK could talk and things * I wish his testimony was different.

Dear Mr. Lamb, *opinion*

Since March 1991 I have
had  with the media. Over
the past several months I have covered many
what solve
plain the
in spite of
I don't know

Without someone's help
I may have to discuss the technology
and events with only circumstantial
evidence of the pro-opr campaign. (And don't
forget since July 1992 Jeffrey Schulte's distracting
forgery.) This could result in me living
in a controlled setting, far away for many years,
without solving any problem!

You obviously read of my anger
toward *John Kennedy in the letter to
Chuck Harder. I ~~could~~ talk and things
* I wish his testimony was different.

then happened. Here I have to explain
of powerful technology which my family
cannot conceive of. — Then talk only
too persuade. It will be a painful discussion.

Also included was a copy
of the doctor situation in Florida
according to the Gainesville Sun. I
would have liked to have read confirmation
of the fact or a denial in the Port
St. Lucie News. Since there has been no
lawsuit it would appear that the article is
correct. Unfortunately,

Hopefully my family will listen
to me, get over the various shocks,
and then behave sensibly. And hopefully
Jeffrey Schulte will do the same. He
has the least difficult task ahead of
him.

Don't forget to cover GATT/WTO!
Thank you for your time.
Sincerely,
