Thank you for your coverage of the Congressional Sessions, hearings, Committee meetings etc. I am most grateful for the education. It is most enlightening.

However, I could care less about Russian Politics and news. Could you please consider, if we can't have more American news coverage, to cover other Countries internal affairs - say how about some of the NASTA and GATT

Countries economic and political news?

I am a C-Span junkie and can't get enough of your excellent balance of coverage.

I am a Republican and conservative moderate and look forward to getting rid of the influence of the past 40 years dependence of too many Americans to expect gov't to answer all our problems.  
Thanks again
