Dear C-span,

First let me say a big thank-you for your excellent coverage of the news events, political conventions, and all the unbiased, FAIR reporting you do. I graduated from a school of journalism and I'm embarrassed for the other networks. So biased and unprofessional.

Sat, Sept 5

I watched your coverage of the Senate hearings on telecommunications and Technology in Education. I'm on a county committee to research technology in our county-wide ^{school} system. As a result of your broadcast a group of us went to Carrollton, GA. (Pat Wright's baby), and did we ever get our eyes opened!

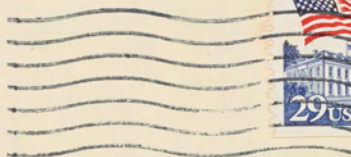

I'm writing to find out how to get a transcript or tape of those hearings & addresses of the speakers on the panels. Please respond - ms [redacted]
