

24 April 94

C-SPAN is supported by cable
suppliers - I am paying you!!
On the evening of 23 April
C-SPAN did a live broadcast
of the White House Corre-
spondents dinner in Wash.
D.C. The program was re-
broadcast in the early
hours of Sunday a.m.

However, about 15 minutes
had been cut from the
beginning of the program
when C-SPAN got around
to the re-broadcast!!!
The 15 minutes you cut
were views of the highly
mighty milling around,
viewers got to see who was
sucking up to who (to para-
phrase Al Franken), who
was left alone, etc. - info
perhaps more important than
the actual program!
You don't let viewers know
of your cutting practices -
either. Get honest, or stop it!
