Mr Lamb

I see you [redacted] end of your
own. It's [redacted] Carbondale CO and all we
see is [redacted] 8/623
and teaching American
history authors. We have on this day
the most potential audience when most
Americans are off and can see C-span.
and we get views of what I call educated
idiots. It's their books and teaching
that has contributed to the decay of
America. C-Hitchens and others are
not American citizens and I agree
on what a caller said on another program
on C-span. Butt out & get back to England
where you belong. your channel is not
the only one. we have on CNBC Mr Foxner
with Oonshue. He also should get out of
here. It's bad enough we have our
College Professors consumed with them
selves and their intellectual views.
I for one am tired of the British Parla-
ment and all their nonsense.

C-Span
Brian Lamb

Impugning

Mr Lamb

I see you also have an agenda of your own. It's thanks giving day and all we see is Booknotes and Teaching American history authors. We have on this day the most potential audience when most Americans are off and can see C-Span.

And we get views of what I call educated idiots. It's their books and teaching that has contributed to the decay of America. C-Hitchens and others are not American Citizens and I agree on what a caller said on another program on C-Span. Butt out & get back to England where you belong. Your channel is not the only one, we have on CNBC Mr Foreman with Oonahue. He also should get out of here. It's bad enough we have our College Professors consumed with themselves and their intellectual views.

I for one am tired of the British Parliament and all their nonsense.

I've watched long enough now to see why with booknotes they are on. It's you that enjoys that garbage not us. We are in a time like no other America has seen. We need now more than ever more informed Americans and for those that work everyday not able to see C-span. I feel it's a wasted day of programming. If you have C-span II and I do not get that to see, I have to ask myself. If you need to ^{view} things as today. What do we need C-span II for? I feel you and your staff do a good job of fairness when calls come in. We have never been a Country who seems to learn from history anyway. For good or bad we like no other people deal with the present more than the past.

If you think Washington has been shook from this Election. Watch what happens to those elected if they don't change. It will be either a 3rd party or an revolution that has no comparison to the Boston Tea Party. This is what I hear from people,

Thanks
