To Whom It May Concern:

We are very curious as to why C-Span I saw fit to schedule Ross Perot delivering our signed petitions to Washington in the middle of the night last week. Also, why Ross was not covered by C-Span I discussing NAFTA with the Senate Committee.

We watch you daily and heard comments from Brian Lamb about the senate hearing, that you did not have enough cameras to cover the gay march and Ross. We also heard Mr. Lamb say Ross knew this two hours before he appeared on the Larry King program. It is obvious to all of us that Mr. Lamb does not like Ross Perot just by his questions etc. when our people call in. Also the way he phrases his questions to guests when Ross Perot's name is brought up.

The petitions that were delivered to Washington last week by Ross were significant, not only in numbers but also because these are citizens who vote and are sending their message to the powers that be in Washington. There are millions of us out here that are fed up with business as usual and are Perot supporters. We are ~~not~~ not going away. You are supposed to be non-partisan and show the entire political spectrum. We know the good old

Washington elite are trying to keep Ross quiet Hoping this movement will just go away. We know how important the media is and the influence some political reporters have. Are you all afraid of the truth?

Why don't you have an honest debate about NAFTA instead of the "Evening News From Moscow"? Perhaps one of your guests could bring a list of fac. money received by our legislators from companies that are the major proponents of NAFTA. As Ross says, you all think the American people are brain dead. Let me assure you, we are not !!

Sincerely,

P.S. Very few people have C-Span II as their cable companies do not carry it.
