To Whom It May Concern,

I, [REDACTED] would like to win a 3 day trip to Washington by telling you - I watch C-Span because in 500 words or less,

I watch C-Span because to me it is very interesting and educational to watch and hear our political figures discuss our national matters as to their possible effects upon our nation and the possible outcome of the hearings due to their decisions.

I also see much clearer the standings of both parties on all issues concerned and the partisan and bi-partisan of the parties.

I also could clearly see the dissention of our political parties as to the Republican members sticking up very strongly for the Republican president more so than sticking up to Honesty, integrity and fairness to the country.

C-span viewing to me has been very educational and still is since I watch it every day and learn every day the desperate need of a more Co-operative

body of personnel from Congress, the Senate, the President and his Administration to run our great country which in my view is deteriorating financially and creditably due to its ruling few.

L. Span has also shown ^{and} taught me that many politicians consider their President above all everything and a lot of politicians are like sheep following their leader and agreeing with all the time thusly harming the nation and its inhabitants.

L. Span has also taught me quite vastly thru their Congressional and Senate hearings, the outrageous and wasteful spending by these people and then burdening the Taxpayers to cover their doings while at the same time they are getting away with it all by making of their own rules and laws.

Lastly L. Span has taught me that our nation needs Honest men who will follow our original Constitution and laws of our Fore fathers to once again

Make America Strong, Make America
Wanted instead of Rejected, Make
America Rich, Dependable as
well as Free and Needed by
all and America must not
lose its respect by letting one
man the president, do things
his way rather than the Amer-
ican way Warm, friendly, trust-
worthy.

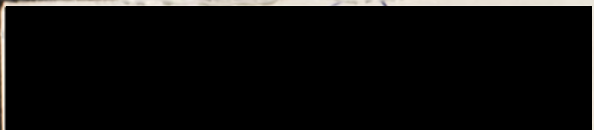

I do hope that my honesty
in answering of why "I like to
Watch C. Spaul" wins me considera-
tion in winning a three day
trip to Washington and meeting
as many as possible our members
of the Congress, senate and maybe
the president.

Sincerely
[Redacted]
