

June 25. 1993

Mr. Congressman:

You Congressmen, Republicans and Democrats alike, know better than any of the masses of honest-loyal United States citizens as to how this beloved country incurred its mammoth debt. The debt did not occur as a result of spending on schools, welfare, social security, medical needs and other social necessities. You congressmen know that. You know too that the big spending is in the realm of aid to other countries, payments to arms dealers, special benefits to wealthy corporations and entrepreneurs, graft and other dealings that you congressmen know all about. You know what is going on, what has been going on and you know what has to be done -- That is, what fairly and honestly has to be done. You know what to cut and it is not the peanut little guys stuff.

Cut the BIG SPENDER CONNERY. Close those loop holes that you allow to exist that permit the real big spenders to legally-dishonestly slide though. Legally-dishonestly is a oxymoron and written to show how you congressmen permit a dishonest act to remain in the law as a legal act. BILL 936 for example. You know that is wrong -- You should have cut 936 long ago. And the irony of it all is that you even make new laws to create loop holes: How expensive was it for Fortune 500 and others to move to Mexico? Who footed the bill? Who allows the Federal Reserve Banks to charge interest on moneys that the United States Treasury prints? You congressmen know that connery. And why are you giving our sovereignty away? How much of the National debt is owed to the FED?

Cut all tax-free benefits. Cut letting the thieves of banking scandals and insider abominations, etc, get off with small penalties and fines -- Make them return the value of the loot. Cut all foreign aid until domestic problems are squared away. Cut paying subsidies to wealthy farmers and others who are taking advantage of our weak Governmental laws. Cut paying interests to the Federal Reserve Bank for money that the United States Government prints. Do away with the Federal Reserve private banking system. Cut payments to the United Nations. Cut forgiveness on Foreign loans. Cut using our troops for off-shore wars. Cut CIA operations in the United States. Cut government waste, perks, and the luxuries you freely enjoy at the taxpayers expense -- You are special people, but just how special are you? Are you royalty?

There are so many things that you know you can cut out to get this nation back in the black and it is not the peanut social programs of little people. Those that made the debt should pay the debt -- Don't make United States Citizens the goats for the big spenders that make big profits off the masses to enhance their own wealth.

Congressman you seem to be incredibly out of touch with the masses of United States Citizens. Poor People are United States Citizens Too, you know. When funds are solicited, one or two dollars is not requested, rather, twenty or more dollars is the object of the request. A dollar isn't a Truman nickel anymore. Consistent with the times, it probably would be apropos or appropriate to say one hundred dollars is the congress one dollar.

002594 JUL 893

You congressmen seem to be accustomed to having so much and spending so much that you assume that the citizens have plenty of money too.

Right now we seem close to a two-class society. The middle to poor class and the elite very rich class. The elitist are in power and seem to be seeking support for the Mexican Free Trade treaty (NAFTA). The masses of the United States Citizens are going to be in real trouble if you congressmen let that Treaty go into effect.

The United States of American People are not against acquiring wealth. They appreciate the opportunity to get wealth and would like to have it. They aren't stupid -- They know that everyone cannot be on top. And they know that they don't want to be peasants in a feudalistic society. Or a Nation very much different from the one they inherited from their fore-fathers. However, it looks like a very unscrupulous-unempathetic-greedy-elitist group is set on turning back the pages of time, even further than the time of our fore-fathers to the time of Charlemagne (800-814 AD) -- France's Feudalistic Period in history: All for greedy self enhancement. You congressmen appear to have been bought by this elite group -- In many ways you appear to be surrogates fronting for their cause.

It isn't difficult to see through their act. Their method is to open up new markets throughout the world so that they can make a lot of money. They move around like nomads looking for cheap labor and fools to buy their products. They created organizations called corporations that have the same rights as real people -- These robotics-like-nomads compete with real people without responsibility -- They deplete one area and then move to another on their so-called one world-government trek. They will never get there in our time and they know it. It is an economic ploy to get around the organizational harmony of established countries. They get cheap labor, get around environmental laws, deplete the natural resources of a country, monopolize trade, etc, and disrupt a peaceful world all for the sake of earning big profits for themselves.

Are we wasting our time appealing to you to cut what seems to be acts of disloyalty to the United States? Are we wasting our time when we ask you to help us to take our country back from those globalists that show by their activities that they owe allegiance to no country?

We the people of the United States urge you to join us in our attempt to stop this greedy stampede of power-seeking-mongers. We urge you to help us to "establish justice, insure domestic tranquillity, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity." We urge you NOT to support subversion to the RULES OF THE GAME (our constitution). We urge you not to change the laws that result illegally in circumventing the Constitution of the United States for the purpose of enhancing the wealth of a privileged few.

Sincerely,
