Dear Sirs

On Sunday April 24th I turned on the television and was absolutely appalled at what I saw on your CSPAN station. The Camera Zeroed in on a rather healthy female who was bare chested at a March on our Nation's Capital.

How can you show these things on television unedited not knowing what age person, possibly children who would be watching. I was by myself but even that I was embarrassed and shocked. I know these things happen all the time but why publicize or flaunt it.

Your station was wrong in showing this. I don't intend to watch CSPAN again and I know others who feel the same way. I am sending a copy to the Mass Media Bureau of this letter.
