WHY I WATCH C-SPAN

Recently we moved to this area from California.

My husband, in testing our T.V. fare, discovered C-SPAN, which to us, is a very new and welcome type of programming. He called my attention to it and we have been faithful viewers ever since.

Why? My partial eye-sight makes reading impossible for exploring all the facets of news that interests me. C-SPAN programs supply a life-long search for knowledge.

Variety of Subject matter is a large item. Informative discussion, Political debate, Court cases - all pique our curiosity. This morning I've been watching "Victim's Assistance." It really was heart touching.

We are Senior Citizens, over seventy years of age. Many times we are able to learn matters that deal with our age group in a personal way.

My husband, having been in the Ministry over fifty years, was extremely taken with "Prayers in the Schools."

We feel as if we are getting acquainted with the Political Figures of our government. This is most important!

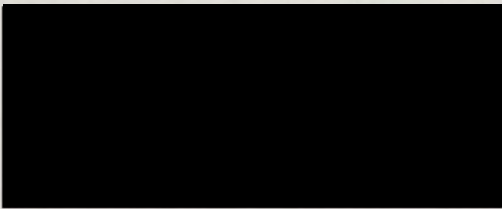

We appreciate the excellent Camera work. It is almost like being there.

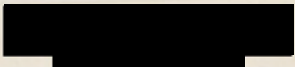

Chronology , also, is a great factor. A dab of News here and

another there, does very little but confuse. To be able to hear hours of discussion and debate helps round out the whole National, State and even World Picture.

Thank you for meeting an especially personal need.

Cordially yours,

Tumwater, WA 98502-98501
