Gentlemen:

It is very disturbing too see your large majority of guest, with mostly right wing views, such as Cal Thomas, & others.

I note with interest the appearance of Eleanor Clift on a recent show, this was a pleasant surprise, although she was bombarded by your right wing viewers, that included name calling.

I still challenge that your programs are mainly too the right, & farther challenge, that you could do more, by having guests, that are not afraid too tell the truth, about the last twelve years.

I have suggested several times that you should read the book Disposable patriot, and invite the authors, for a interview, authors Ron Marks, & Jack Terrell, it is possible that Cynthia Tucker of the Atlanta journal constitution could put you →

in touch with one, or both.

Sincerely,
