Mannero La.

To All C span Host.

my name is mrs. [REDACTED]
I am printing because i write bad.
I watch your program Twice daily.
And each Time you have someone
on your show, from our government,
Congress or senetors, not one of
them talk about real problems.
mainly (Homeless), Elderly people.
So i a asking you To Ask, on
show each of Them these questions.
What's going to become of our
homeless people? What's going to
become of our elderly people.
we have To many boarded up
houses in The u.s. To have
peopl living on The streets.
I have been writting To The
president and Congress, The senate,
For 2 yrs. now. I no none of them
read my letters, They have a
staff To do it. BUT i would
like For Them To read it, and
Think about Familiys sleeping on
The streets. Elderly people starving
To death. I Am sick and Tired of
hearing about gay people and problems
in other parts of the world. Let
Them start helping our people.

and we can start by taking board
of off empty houses, and putting
our people in them, or stop giving
money to homeless shelters and
use the money for houses for our
people. Now we have our elderly
people getting \$1 to \$16 a mt. of
food stamps, while we have every one
else selling food stamps. Some thing
is very wrong, with the way the
government works. But it can be
fixed. Take the money you give
to shelters, and pay rent, or just
let homeless families live in houses.
stop giving all these young women
money and food stamps, for nothing.
Each time a woman have another
baby, (Bam) more money and food
stamps. while homeless are still
out doors. and elderly people are
still starving. I have ask them
so many times to let me use a
building for my homeless people, well
Ahh i get is nice letters, i am fine
of nice letters. our people need help.
maybe if you read this on the air,
more people will get angry also,
please help me to help our
people.

Thank you,
